Other Allergens (Garlic, Onion, Chilli, Tomatoes, Peas, Other Pulses)

How To Use

INTRODUCTION

Hello, welcome to our allergy information guide, which details all the dishes that we offer and is designed to help you make decisions on the food and drink that you order.

If you have an allergy to any ingredient, please place your order at the bar and let a member of the team know, even if you have dined with us before. Before ordering, please read the allergy statement on our menu.

Our Allergen Matrix contains a list of all the dishes served in our Lounges. At the top we have listed the 14 declarable allergens for your reference, you can then use the key below to see which allergens are contained in which dishes. At the end of the document (pg. 34-37) you will also find information detailing which of our dishes can be made without 6 other non-declarable allergens (Garlic, Onion, Chilli, Tomatoes, Peas, Other Pulses).

●	A RED dot means that the dish contains the specified allergenic ingredient. i.e. The ingredient is not included in the menu description but may be part of a sauce.
■	A GREEN highlighted box means the dish can be modified to remove the specific allergenic ingredient. See Modification column and make sure to inform your waiter of your allergy(ies) when ordering at the till.
M	A black M means the dish "May Contain". The term 'May Contain' is used to highlight where an allergen is not in a recipe or intentionally in a dish, but where the manufacturer of an ingredient believes that cross-contamination may still be a risk. Cross-contamination happens when traces of allergens get into products accidentally during the manufacturing, handling, transport or storage of foods.
*	A BLUE Asterisk means that the dish is fried in oil that may also be used to fry other dishes that contains the allergen
M*	A black M with a A BLUE Asterisk * means there is a 'May Contain' risk + a fryer cross contamination risk for this allergen.
✓	VEGETARIAN
Ⓥ	VEGAN
✓	A PURPLE TICK shows that Made Without dishes have a GF option available - for 14 declarables see GF MENU pg 14.
